

The University of Lübeck stands for exceptional research and teaching. We are a modern foundation university with a focus on several core topics. As a life science university, we offer a range of courses from medicine, health sciences and psychology to mathematics, computer science, natural sciences and technology. Our motto is: "Focus on Life".

The Department of Psychology at the University of Lübeck is looking to hire a

### **Research Scientist (m/f/d)**

The position is available for 3 years (0.75 full time equivalent: 29h/week), starting February 1<sup>st</sup>, 2024. The possibility of obtaining a PhD is given.

The position is situated in the established research group "Auditory Cognition" (Prof. Jonas Obleser) under the supervision of PD Dr. rer. nat. Malte Wöstmann. The position is part of a research project funded by the German Science Foundation (DFG). The project aims to explore auditory attention and its neural bases. To this end, we will record behavioral and electroencephalography (EEG) data in younger and older adults to investigate the neuro-cognitive mechanisms underlying capture of attention and suppression of distraction. The position does not come with any teaching obligations.

#### **Tasks:**

- Development, implementation, and analysis of scientific studies addressing the main objectives of the funded research project
- Preparation of publications in international peer-reviewed journals and presentations at (inter-)national conferences

#### **Requirements:**

- Completed university degree (diploma or master's degree) in any of the disciplines psychology, cognitive neuroscience, audiology, or engineering
- Interest in neuroscience and particularly in auditory attention
- Prior experience with human cognitive neuroscience methods (especially EEG and/or fMRI analyses) is preferable
- Initial experience in planning and conducting scientific studies and/or data analysis
- Great interest in psychological research questions and the ability to work independently
- Strong command of English

#### **What we offer:**

- Excellent and state-of-the-art interdisciplinary research environment
- Support for your scientific career and the opportunity to pursue a doctoral degree
- National and international collaborations within the research projects
- Operational pension scheme
- Flexible working hours
- Mobile working
- Compatibility of family and work
- NAH-SH / Deutschland public transport ticket, access to university sports facilities, discounts at the canteen on campus and many other perks
- Health management programme "*Healthy University*"
- Training opportunities
- Pay in accordance with the current tariff if the tariff requirements are met, up to pay grade E13 TV-L. Subject to a final job evaluation.

UNIVERSITÄT ZU LÜBECK
